Dear Mr. Portman:

In accordance with Executive Order 12322, I am submitting for your review a report evaluating proposed hurricane and storm damage reduction measures for Montauk Point, New York. The enclosed draft letters to the Speaker of the House of Representatives and the President of the Senate express the views and recommendations of the Secretary of the Army and reflect the Administration's position regarding this project.

The proposal is described in the report of the Chief of Engineers dated March 31, 2006. A copy of the report and other supporting data are enclosed. This report is in response to authority contained in two resolutions adopted by the Committee on Environment and Public Works of the Senate, dated May 15, 1991.

Please advise this office whether my recommendations to implement the project are consistent with Administration policy.

Very truly yours,
