Dear Mr. Zients:

I am submitting a report for your review that recommends construction of the Savannah Harbor Deepening Project, Georgia and South Carolina. The enclosed draft letters to the Speaker of the House of Representatives and the President of the Senate express the views and recommendations of the Secretary of the Army.

The proposal is described in the report of the Chief of Engineers, dated August 17, 2012, which was prepared in response to section 101(b)(9) of the Water Resources Development Act of 1999. A copy of the report and other supporting data are enclosed. Please advise this office whether the recommendation to implement the project is consistent with Administration policy.

Very truly yours,
