

SECTION 595 – WRDA 1999, AS AMENDED

ENVIRONMENTAL INFRASTRUCTURE

**IDAHO, MONTANA, RURAL NEVADA, NEW MEXICO, RURAL UTAH, AND
WYOMING**

**MODEL AGREEMENT
FOR
DESIGN
ASSISTANCE**

(WORK PERFORMED BY GOVERNMENT)

**SEPTEMBER 13, 2007
REVISED - JULY 15, 2009**

APPLICABILITY. – The attached model agreement is one of six models for the provision of environmental assistance to non-Federal interests in Idaho, Montana, rural Nevada, New Mexico, rural Utah, and Wyoming pursuant to Section 595 of the Water Resources Development Act of 1999, Public Law 106-53, as amended (Section 595). The following descriptions are provided to assist in determining the correct model to be used for your project. The models discussed below should not be used for any other environmental infrastructure authority. Models for the other environmental infrastructure authorities can be found in the approved model section of the PCA Web page. If there is no approved model posted in the approved model section of the PCA Web page that is applicable to your particular environmental infrastructure authority, the District Project Delivery Team should consult with the appropriate HQ RIT in Washington for guidance on drafting the appropriate agreement.

Section 595 Federal Design – The attached model should be used for Section 595 projects when the sponsor requests design for the project be undertaken in the agreement and requests the Government perform the work on the project. Optional language is included in the model in case the sponsor wants to perform some of the design. Since this agreement is limited to design, compliance with all applicable environmental laws and regulations is not required prior to approval and execution of the agreement.

Section 595 Federal Construction – Use only for Section 595 projects when the sponsor requests only construction of the project be undertaken in the agreement and requests the Government perform the work on the project and the Government completed the design for the project pursuant to a *Section 595 Federal Design* agreement. If the sponsor intends to provide a design, or a portion thereof, for use by the Government in constructing the project (pre-Agreement design work), do NOT use this model – use the *Section 595 Federal Design and Construction* model. Optional language is included in the model in case the sponsor wants to perform some of the construction. An agreement using

this model may **NOT** be approved and executed prior to compliance with all applicable environmental laws and regulations including, but not necessarily limited to, the National Environmental Policy Act of 1969 (42 U.S.C. 4321-4347; hereinafter “NEPA”) and Section 401 of the Federal Water Pollution Control Act (33 U.S.C. 1341).

Section 595 Federal Design and Construction – Use only for Section 595 projects when the sponsor requests both design and construction of the project be undertaken in one agreement and requests the Government perform the work on the project. Optional language is included in the model in case the sponsor wants to perform some of the design or construction. An agreement using this model may be approved and executed prior to compliance with all applicable environmental laws and regulations including, but not necessarily limited to, NEPA and Section 401 of the Federal Water Pollution Control Act (33 U.S.C. 1341). However, the necessary compliance with all applicable environmental laws and regulations will be performed during the design portion of the agreement and **must** be completed prior to initiation of construction.

Section 595 Non-Federal Design – Use only for Section 595 projects when the sponsor requests design for the project be undertaken in the agreement and the sponsor will be performing the work on the project. The Federal share will be provided in the form of reimbursement. Since this agreement is limited to design, compliance with all applicable environmental laws and regulations is not required prior to approval and execution of the agreement.

Section 595 Non-Federal Construction – Use only for Section 595 projects when the sponsor requests construction of the project be undertaken in the agreement and the sponsor will be performing the work on the project. The Federal share will be provided in the form of reimbursement. An agreement using this model may **NOT** be approved and executed prior to compliance with all applicable environmental laws and regulations including, but not necessarily limited to, NEPA and Section 401 of the Federal Water Pollution Control Act (33 U.S.C. 1341).

Section 595 Non-Federal Design and Construction – Use only for Section 595 projects when the sponsor requests both design and construction of the project be undertaken in one agreement and the sponsor will be performing the work on the project. The Federal share will be provided in the form of reimbursement. An agreement using this model may be approved and executed prior to compliance with all applicable environmental laws and regulations including, but not necessarily limited to, NEPA and Section 401 of the Federal Water Pollution Control Act (33 U.S.C. 1341). However, the necessary compliance with all applicable environmental laws and regulations will be performed during the design portion of the agreement and **must** be completed prior to initiation of construction.

NOTES. – The following pages (iv – xvii) contain numbered notes to assist in drafting an agreement for your project using this model. Throughout the model agreement, there are references to the numbered notes (example: [SEE NOTE – 6]) to direct you to the

appropriate note that provides explanation and guidance on use of optional language or information required to fill in the blanks. Several of the notes are general in nature and should be reviewed and discussed with the sponsor during preparation of the draft agreement for your project.

OPTIONAL LANGUAGE. – The use of optional language allows the model to be applicable to a larger universe of projects. Many of the numbered notes (example: [SEE NOTE – 7]) require you to choose between multiple versions of language or to choose whether or not to include a paragraph, sentence, or phrase depending on the specifics of your project. In many cases optional language to address a concept, such as the sponsor performing non-Federal design work, is required in numerous locations throughout the agreement. Each of these locations has been identified with numbered notes; however, it is important to ensure that, if the optional language addressing a certain concept is included in one location, it is also included in all other appropriate locations. Correct use of the optional language is not considered a deviation from the model.

BLANKS. – There are numerous locations where information specific to your project is required to fill in a blank. All of the blanks must be filled in, except the date in the first paragraph, prior to forwarding the agreement for review. Including the information required to fill in a blank is not considered a deviation from the model.

DEFINED TERMS SHOWN IN ITALICS. – Throughout the agreement the terms defined in Article I are shown in italics. Do not remove any of the *italics* from the agreement.

NOTES:

1. **FORMAT.** - Remove the cover pages, notes section, all bold type references to notes, and any bold type text from the agreement prior to forwarding for review. **Reminder: Do not remove any of the *italics* from the agreement.**

2. MULTIPLE SPONSORS.

A. **No division of responsibilities between or among multiple sponsors in agreement.** - In the event there are two or more entities serving as the sponsors for the project, and there is no division of responsibilities between or among them, the agreement can be modified to identify all the entities collectively as the “Non-Federal Sponsors”. However, it should be explained to all entities that the term “Non-Federal Sponsors” is construed to hold multiple sponsors jointly and severally responsible for compliance with all agreement obligations. The changes outlined in paragraphs A.1., A.2., and C. of this note are required to identify all entities collectively as “Non-Federal Sponsors” and are not considered deviations from the model.

1. **Modify first paragraph to include name of each entity serving as a sponsor.** (Example: ... Magoffin County Fiscal Court represented by the Magoffin County Judge and the City of Salyersville, Kentucky represented by its Mayor (hereinafter the “Non-Federal Sponsors”))

2. **Change “Non-Federal Sponsor” to “Non-Federal Sponsors” throughout the agreement.** There are several paragraphs where this change will require additional grammatical changes immediately following the phrase “Non-Federal Sponsors” to reflect multiple sponsors (i.e. “its” to “their” or “assumes” to “assume”, etc.).

B. **Division of responsibilities between or among multiple sponsors required in agreement.** - While it is preferred to have only one sponsor or, when multiple sponsors are necessary, to designate them collectively as “Non-Federal Sponsors” (see paragraph A. of this note), we do recognize there are instances where there are two or more entities serving as the sponsors for the project and there is a need for a division of responsibilities between or among them in the body of the agreement (such as - one sponsor can only provide the LERR and the other sponsor performs all other responsibilities or one sponsor can only serve as sponsor for one purpose and another sponsor is required as sponsor for other purposes). It is important that each obligation in the agreement is reviewed and assigned to the appropriate party and that all obligations of the agreement are addressed. We have found that modifying an agreement to address a division of responsibilities can be very cumbersome and it offers many opportunities for inadvertent omissions. Therefore, at a minimum, the division of responsibilities in the drafted agreement for your project must be coordinated with the vertical team (PDT, MSC, HQ, and, if necessary OASA(CW)) to ensure that the proposed division of obligations is acceptable and that all obligations are addressed. The changes outlined in paragraphs B.1., B.2., and C. of this note are required for multiple sponsors where such approach was documented fully in the approved decision

document or otherwise was approved in writing by the HQ RIT. When so approved, such changes to address multiple sponsors are not considered deviations from the model.

1. Modify first paragraph to identify each entity separately using the identifier preferred by the sponsor (see note 4) and then collectively as the “Non-Federal Sponsors”. (Example: ... The State of California (hereinafter the “State”), represented by the President of The Reclamation Board, and the Sacramento Area Flood Control Agency (hereinafter “SAFCA”) represented by its Chair of the Board (the State and SAFCA when referred to collectively are referred to as the “Non-Federal Sponsors”))

2. Review each occurrence of “Non-Federal Sponsor” and change it to the identifier for the sponsor that will be responsible for that obligation. If all sponsors collectively will be responsible for an obligation, then change “Non-Federal Sponsor” to “Non-Federal Sponsors”. There are several paragraphs where this change will require additional grammatical changes immediately following the phrase “Non-Federal Sponsors” to reflect multiple sponsors (i.e. “its” to “their” or “assumes” to “assume”, etc.).

C. The changes below are required for all agreements with multiple sponsors, regardless of whether you followed paragraph A. or B. above. These changes are not considered deviations from the model.

1. Modify title to include name of each entity serving as a sponsor.

2. On the signature page, a separate signature block will be required for each entity serving as a sponsor.

3. A separate Certificate of Authority will be required for each entity serving as a sponsor.

4. A Certification Regarding Lobbying must be signed by each signatory to the agreement.

3. **GOVERNMENT REPRESENTATIVE.** – Insert the title of the Government representative signing the agreement. Do not include the name, only the title. (Example: U.S. Army Engineer, Mobile District)

4. **REFERENCE TO NON-FEDERAL SPONSOR.** - Use “Non-Federal Sponsor”, “Local Sponsor”, “State”, “County”, “Commonwealth”, “Territory” or other identifier as preferred by the sponsor in the parenthetical phrase and consistently throughout the agreement. This change is not considered a deviation from the model. If this change is made in one location, ensure that all other locations are similarly changed.

5. **NON-FEDERAL SPONSOR REPRESENTATIVE.** – Insert the title of the sponsor’s representative signing the agreement. Do not include the name, only the title. The title shown for the sponsor’s representative should match the title shown on the signature page

and should be preceded by “the” or “its”, as appropriate, to match the title of the sponsor’s representative. (Example: the Mayor)

6. LOCATION OF PROJECT. - Choose, Option (1) if the project is located in Idaho; Option (2) if the project is located in Montana; Option (3) if the project is located in rural Nevada; Option (4) if the project is located in New Mexico; Option (5) if the project is located in rural Utah; or Option (6) if the project in the agreement is located in Wyoming. Delete, in their entirety, the options not used.

7. PRE-AGREEMENT DESIGN WORK. – Only design performed by the sponsor prior to the effective date of the agreement subject to the conditions and limitations stated in the agreement should be considered “pre-Agreement design work”. The reasonable costs of pre-Agreement design work which have not been included in any other agreement for the project shall be included in total design costs. Because the authority for reimbursement is specifically stated in Section 595, the sponsor will be reimbursed, subject to the availability of funds and as limited by the applicable Section 595 Program Limit and the Section 102 Limit, for the costs of pre-Agreement design work that when added to the other sponsor contributions exceed the sponsor’s share of total design costs. If the sponsor requests credit for pre-Agreement design work, then all language regarding pre-Agreement design work should be included in the agreement.

A. For each location where an optional paragraph(s) or an optional phrase regarding pre-Agreement design work is provided, include in your agreement all of the optional paragraph(s) or optional phrase, as applicable, only if the sponsor is requesting credit for pre-Agreement design work. Reminder: If optional Articles I.J. and I.K. and Articles II.B.3. and II.B.4. are not included, reletter the remaining paragraphs in Article I and renumber the remaining paragraphs in Article II.B. and verify all previous and subsequent references to paragraphs in Article I and Article II.B. throughout the agreement and correct, as necessary. Relettering the remaining paragraphs in Article I and renumbering the remaining paragraphs in Article II.B. and correction of all references to paragraphs in Article I and Article II.B. are not considered deviations from the model.

B. For each location that requires a choice between two options – Choose Option (1) if the sponsor is not requesting credit for pre-Agreement design work or Option (2) if the sponsor is requesting credit for pre-Agreement design work. Delete, in its entirety, the option not used.

8. NON-FEDERAL DESIGN WORK. – The sponsor for a project may perform some design work on the project. The sponsor’s costs of such work shall be included in total design costs, subject to the conditions and limitations outlined in Article II.B.5. of the agreement. Because the authority for reimbursement is specifically stated in Section 595, the sponsor will be reimbursed, subject to the availability of funds and as limited by the applicable Section 595 Program Limit and the Section 102 Limit, for the costs of non-Federal design work that when added to the other sponsor contributions exceed the sponsor’s share of total design costs. If the sponsor requests to perform non-Federal

design work, then all language regarding non-Federal design work should be included in the agreement. Language regarding credit for pre-Agreement design work (design performed by the sponsor prior to the agreement) is addressed in Note 7.

A. The items to be performed by the sponsor should be generally agreed upon by the Government and sponsor prior to drafting and execution of the agreement for the project. During this period if it is estimated that the sponsor will be performing most of the work on the project, the district and sponsor should consider having the sponsor design the entire project and therefore use the *Section 595 Non-Federal Design* model.

B. Whereas clauses.

1. If the sponsor will be performing non-Federal design work, the 2 Whereas clauses following the reference to this note should be included in your agreement. If the sponsor will not be performing non-Federal design work, delete the 2 Whereas clauses following the reference to this note. Deletion of these Whereas clauses is not considered a deviation from the model.

2. If your agreement includes both pre-Agreement design work (see note 7) and non-Federal design work, delete the first occurrence of the Whereas clause regarding Section 102. The two Whereas clauses regarding Section 102 are identical and it is not necessary to repeat the clause. Deletion of the extra Whereas clause regarding Section 102, in this case, is not considered a deviation from the model.

C. For each location that requires a choice between two options - Choose Option (1) if the sponsor will not be performing non-Federal design work (2) if the sponsor will be performing non-Federal design work. Delete, in its entirety, the option not used.

D. For each location where an optional paragraph(s), optional sentence, or optional phrase regarding non-Federal design work is provided, include in your agreement all of the optional paragraph(s), sentence, or phrase, as applicable, only if the sponsor will be performing non-Federal design work.

1. Optional Whereas Clause and sentence at end of Article I.A. Verify the reference to Article I.L. contained in the optional Whereas clause following the reference to this note and the optional sentence at the end of Article I.A. and correct, as necessary. This reference could change if the optional Articles I.J. and I.K. regarding pre-Agreement design work (see note 7) are not included in the agreement for your project. Correction of this reference is not considered a deviation from the model.

2. Optional phrase in Articles I.B., IV.A.1., and IV.A.2. Verify the reference to Article II.B.5. contained in the optional phrase to be added in Articles I.B., IV.A.1., and IV.A.2. and correct, as necessary. This reference should be changed to Article II.B.3. if the optional Articles II.B.3. and II.B.4. of the model regarding pre-Agreement design work (see note 7) are not included in the agreement for your project. Correction of this reference is

not considered a deviation from the model.

3. Optional Article I.M. If your agreement includes both pre-Agreement design work (see note 7) and non-Federal design work, do not include optional Article I.M. in the agreement. Optional Articles I.K. and I.M. are identical and it is not necessary to repeat this definition. Deletion of optional Article I.M., in this case, is not considered a deviation from the model. **Reminder:** If optional Article I.M. is not included, reletter the remaining paragraphs in Article I and verify all previous and subsequent references to paragraphs in Article I throughout the agreement and correct, as necessary. Relettering the remaining paragraphs in Article I and correction of all references to paragraphs in Article I are not considered deviations from the model.

4. Optional Articles II.A.5. and II.A.6. If optional Articles II.A.5. and II.A.6. are not included, renumber the remaining paragraphs in Article II.A. and verify all previous and subsequent references to paragraphs in Article II.A. throughout the agreement and correct, as necessary. Renumbering the remaining paragraphs in Article II.A. and correction of all references to paragraphs in Article II.A. are not considered deviations from the model.

9. DESCRIPTION OF THE PROJECT. – The input required for the description of the project is described below.

A. Describe the project features to be undertaken pursuant to this agreement in detail sufficient to avoid any confusion over what is or is not included. If the project features to be undertaken pursuant to this agreement are an element of a countywide or statewide environmental infrastructure system, only the features to be undertaken in this agreement should be included in the description of the project.

B. The title and date of the decision document that describes the project should be included. Also include the title of the approving official (such as Commander, _____ Division; or Commander, _____ District) and the date of approval. The civilian format for any dates included in the agreement should be used. (Example: January 22, 2004)

C. For any projects where the proposed work is design for reconstruction, repair, or rehabilitation of existing environmental infrastructure features, the sponsor must verify in writing if it was constructed through any other Federal program and whether OMRR&R was required and that the proposed design for reconstruction, repair, or rehabilitation is not normal OMRR&R activities required for the existing environmental infrastructure features. Performance of normal OMRR&R activities should not be considered for implementation under this authority. The letter from the sponsor should be part of the PCA package. If the original construction of the environmental infrastructure feature was performed under a Federal program that required OMRR&R, you should consult with your MSC and HQ RIT for guidance before proceeding any further.

10. SPONSOR CONTRIBUTIONS.

A. If applicable, choose Option (1) if the sponsor is requesting credit for pre-Agreement design work (see note 7) **and** the sponsor will not be performing non-Federal design work (see note 8); Option (2) if the sponsor will be performing non-Federal design work (see note 8) **and** the sponsor is not requesting credit for pre-Agreement design work (see note 7); or Option (3) if the sponsor is requesting credit for pre-Agreement design work (see note 7) **and** the sponsor will be performing non-Federal design work (see note 8). Delete, in their entirety, the options not used. If none of the choices are applicable, do not include the language from Option (1), Option (2), or Option (3) in the agreement.

B. Article IV.A. If the sponsor is not requesting credit for pre-Agreement design work **and** will not be performing non-Federal design work, the words “financial obligations, contributions provided” should be revised to “financial obligations, and contributions provided”. This change is not considered a deviation from the model.

11. **BETTERMENTS.** – A betterment is a difference in quality of an element of the project to be designed, not a difference in kind. (Example: design for installation of larger size or higher grade pipe than needed to meet Federal standards) The term “betterment” does not include any design for features not included in the definition of the project as defined in the agreement. “Betterment” should not be viewed as a catch-all solution to allow the Government to design anything/everything requested by the sponsor.

12. **FISCAL YEAR OF THE NON-FEDERAL SPONSOR.** – If the sponsor requests that the timing of the sponsor’s payments for work to be performed using the Government’s own forces (in-house labor) be on the sponsor’s fiscal year basis, include optional Article I.N. in the agreement. Please note that each contract awarded by the Government for work (design or construction) on environmental infrastructure projects **cannot** use the continuing contracts clause and **must** be fully funded prior to award.

A. If optional Article I.N. is included, Option (2) of Article IV.B. must be selected (see note 18) and Option (3) in Articles IV.B.1., IV.B.2., and IV.B.3. must be selected (see note 22). Fill in the blanks with the beginning and ending dates of the sponsor’s fiscal year. (Example – beginning date July 1 and ending date June 30)

B. Regardless of whose fiscal year is used for timing of the payments in the agreement, the timing of the payments cannot be such that they, in any way, adversely effect the Government’s ability to perform the work using in-house labor. Also, the payments from the sponsor and the availability of Federal funds must be managed to ensure that the proportional cash financing required by the agreement is maintained throughout the life of the agreement.

C. The term “fiscal year” occurs in numerous locations throughout the agreement. If optional Article I.N. is included in the agreement, do not execute a “change all” command to change all occurrences of the term “fiscal year” to “fiscal year of the Non-Federal Sponsor”. Only those occurrences of the term “fiscal year” which are highlighted

as optional text in Article IV should be changed. The other occurrences of the term “fiscal year” should not be modified since they are referring to the fiscal year of the Government.

13. VOLUNTARY DEFERRAL PARAGRAPH. - Include the optional paragraph following the reference to this note in the agreement upon the written request of the sponsor.

A. This deferral will allow the Government and sponsor to evaluate whether to continue with design, modify design to reduce costs, or defer design up to three years to allow the sponsor time to budget for additional funding for its share. However, this deferral cannot exceed three years.

B. The sponsor must specify the dollar amount to be included in this paragraph; however, the dollar amount shown cannot be less than total design costs shown in Article IV.A.1. of the agreement. Further, it is recommended that the amount shown be somewhat greater than total design costs since any increase in total design costs would inevitably lead to invoking the terms of this paragraph.

C. Inclusion of this paragraph does not set a maximum amount of the sponsor’s contributions for total design costs nor does it enable the sponsor to terminate the project.

14. SPONSOR CONTRIBUTIONS.

A. Choose, Option (1) if the sponsor is requesting credit for pre-Agreement design work (see note 7) and the sponsor will not be performing non-Federal design work (see note 8); Option (2) if the sponsor will be performing non-Federal design work (see note 8) and the sponsor is not requesting credit for pre-Agreement design work (see note 7); Option (3) if the sponsor is requesting credit for pre-Agreement design work (see note 7) and the sponsor will be performing non-Federal design work (see note 8); or Option (4) if the sponsor is not requesting credit for pre-Agreement design work (see note 7) and the sponsor will not be performing non-Federal design work (see note 8). Delete, in their entirety, the options not used.

B. Article II.B.1.

1. When the sponsor is requesting credit for pre-Agreement design work or proposes to perform non-Federal design work, timely performance of the non-Federal design work and documentation of the costs for the pre-Agreement design work and non-Federal design work, as applicable, is critical to enable the Government to perform the accounting and audit necessary to determine the actual amount of credit to be afforded for pre-Agreement design work and non-Federal design work, as applicable. The verification of the credit projected to be afforded for pre-Agreement design work and non-Federal design work, as applicable, should be performed periodically throughout the period of design.

2. If the Government, in coordination with the sponsor, projects that the amount of credit to be afforded for the pre-Agreement design work or the non-Federal design work will be different from the amount of credit previously projected, the Government should immediately recalculate the amount of cash required by Article II.B.1. of the agreement. If the amount of cash required increases, the Government should request and obligate the increased amount in accordance with Article IV.B. as needed to maintain the non-Federal proportionate share. If the amount of cash required decreases, non-Federal funds should be de-obligated and Federal funds should be obligated to the extent needed to attain the non-Federal proportionate share, and the reimbursement provisions of Article II.B.2. also may be triggered.

C. Articles II.B.2. and IV.C.2. - If Option (1), Option (2), or Option (3) described in paragraph A. of this note was selected in Articles II.B.1., II.B.2., and IV.C.2., the amount of reimbursement provided pursuant to Articles II.B.2.b. or IV.C.2.b. that is attributable to the pre-Agreement design work and the non-Federal design work is subject to the applicable limitations of Section 102 of the Energy and Water Development Appropriations Act, 2006, Public Law 109-103. The amount of reimbursement made under Article II.B.2.b. or IV.C.2.b. that is attributable to the pre-Agreement design work and the non-Federal design work together with the credits or reimbursements proposed for all other applicable programs and projects cannot exceed the total limit indicated in each fiscal year. Each district should verify with your MSC and your HQ RIT to determine if you are impacted by this limitation.

15. ARTICLE II.C. - LIMITS ON FEDERAL PARTICIPATION.

A. CONGRESSIONAL ADD PARAGRAPH – Article II.C.1. - The dollar amount to be included in the first blank should be the amount of Federal funds that have been appropriated for the Section 595 Program for the applicable state, minus any rescissions and reductions for savings and slippages, as of the effective date of the agreement. The dollar amount to be included in the second blank should be that portion of available Section 595 Program funds for the applicable state that the district is projecting to be available for the project in this agreement, as of the effective date of the agreement. The district, through the Design Coordination Team (Article III), must work closely with the sponsor to plan the design of the project so that useful portions can be designed as funds are made available. The sum of the amount of Federal funds made available for all the Section 595 agreements for the applicable state, including this one, plus the sum of Federal funds made available for overall management of the Section 595 Program allocated to the applicable state, cannot exceed the amount of Federal funds that have been appropriated for the Section 595 Program for the applicable state, minus any rescissions and reductions for savings and slippages, as of the effective date of the agreement, nor can it exceed the current Section 595 Program Limit for the applicable state, unless Congress has authorized an increase in the limit in Act language.

B. SECTION 595 PROGRAM LIMIT – Article II.C.3. - The Government will not issue work allowances for projects undertaken in any state pursuant to the Section 595

Program beyond the amount authorized to be appropriated in Section 595 for that state, currently \$55,000,000 for Idaho, \$25,000,000 for Montana, \$150,000,000 for rural Nevada, \$25,000,000 for New Mexico, \$50,000,000 for rural Utah, and \$30,000,000 for Wyoming.

16. ADDITIONAL ITEMS OF COOPERATION. - Include any additional paragraphs in the agreement necessary to reflect special requirements of non-Federal cooperation specified in the decision document upon which the agreement is based. Carefully review the items of cooperation in the decision document to ensure that all items of cooperation are covered in the agreement. When including any additional items of cooperation in the agreement, name the responsible party then include the item of cooperation contained in the decision document. (Example: The Non-Federal Sponsor shall ...) Including the additional items of cooperation in the agreement is not considered a deviation from the model unless additional language is required elsewhere in the agreement to further address the added item of cooperation.

17. ARTICLE IV.A. – BREAKDOWN OF PROJECT COSTS.

A. The costs shown in Article IV.A.1. should be the current estimate of the costs at current price levels and inflated through the estimated mid-point of design.

B. To determine the sponsor's contribution of funds required by Article II.B.1.: Step (1) determine the sponsor's share of total design costs; Step (2) subtract from the sponsor's share of total design costs the sum of the costs of the sponsor's identification of legal and institutional structures (Article II.F.), the costs of the sponsor's participation in the Design Coordination Team (Article III), the costs of audits performed by the sponsor (Article VII), and the credit to be afforded for pre-Agreement design work and non-Federal design work, if any. If the result of Step 2 is greater than zero, this amount is the sponsor's contribution of funds required by Article II.B.1. that should be shown in the third blank in Article IV.A.1. (or fifth blank – if the agreement includes pre-Agreement design work or non-Federal design work or seventh blank – if the agreement includes both). If the result of Step 2 is equal to or less than zero, then "0" should be shown as the sponsor's contribution of funds required by Article II.B.1. in Article IV.A.1.

Example:

total design costs = \$1,000,000
sponsor's costs for Articles II.F., III and VII = \$25,000
credit for pre-Agreement design work = \$75,000
Step 1 - $(\$1,000,000 \times .25) = \$250,000$
Step 2 - $\$250,000 - (\$25,000 + \$75,000) = \$150,000$

C. To determine the percentage of the sponsor's proportionate share of financial obligations for design: Step (1) determine the financial obligations for design by subtracting from total design costs the sum of the costs of the sponsor's identification of legal and institutional structures (Article II.F.), the costs of the sponsor's participation in the Design Coordination Team (Article III), and the costs of audits performed by the sponsor (Article VII); Step (2) divide the sum of the sponsor's contribution of funds

required by Article II.B.1. shown in Article IV.A.1. plus the credit to be afforded for pre-Agreement design work and non-Federal design work, if any, by the financial obligations for design. This is the percentage that should be shown in the fourth blank in Article IV.A.1. (or sixth blank – if the agreement includes pre-Agreement design work or non-Federal design work or eighth blank – if the agreement includes both).

Example:

total design costs = \$1,000,000

sponsor's costs for Articles II.F., III and VII = \$25,000

credit for pre-Agreement design work = \$75,000

sponsor's contribution of funds required by Article II.B.1. = \$150,000

Step (1) - \$1,000,000 - \$25,000 = \$975,000

Step (2) - (\$150,000 + \$75,000)/\$975,000 = 23.08 percent

D. The blank in Article IV.A.2. should be filled in with the date (month, year) of the first quarterly report of costs to be provided to the sponsor.

18. PAYMENT BY LUMP SUM OR PERIODIC PAYMENTS.

A. Article IV.A.2. - The optional language after the colon must be included in the agreement if the sponsor elects to provide its cash share in periodic payments and Option (2) described in paragraph B of this note will be selected in Article IV.B. of the agreement.

B. Article IV.B. - Choose Option (1) if the sponsor elects to provide its cash share in one lump sum or Option (2) if the sponsor elects to provide its cash share in periodic payments. Delete, in its entirety, the option not used. Continuing contracts authorities are not available for use on environmental infrastructure projects; therefore, each contract awarded by the Government for work (design or construction) on environmental infrastructure projects must be fully funded prior to award. Option (2) can be selected only if the project will be implemented using a combination of contracts and the Government's own forces (in-house labor). While the sponsor must provide its required share of each contract in full prior to the award of such contract it may provide its share for any work to be performed using the Government's own forces (in-house labor) in periodic payments by fiscal year, quarter, or fiscal year of the Non-Federal Sponsor (see notes 12 and 22).

19. PAYMENT MECHANISMS. – Both Option (1) and Option (2) of Article IV.B.1. offer the sponsor four mechanisms from which to choose in deciding how to provide its required monetary contribution to the Government. The sponsor should indicate its choice during the course of negotiating the agreement. However, the sponsor may use any of the methods or a combination of them, during the life of the agreement in accordance with guidance governing the use of electronic funds transfers, escrow agreements, and irrevocable letters of credit. Do not delete any of the four mechanisms.

20. TIMING OF FIRST REQUEST FOR SPONSOR'S FUNDS.

A. Article IV.B.1. - Insert the number of days (must be 30 or more).

B. Article IV.D.1. - Recommend the amount of days shown be at least 60. The last sentence of this paragraph states that the sponsor is required to provide the requested funds no later than 30 calendar days prior to the Government incurring any financial obligations to include betterments in the design of the project. Therefore any number less than 60 will give the sponsor less than 30 days notice prior to when the funds must be provided to the Government.

21. LENGTH OF TIME TO PROVIDE ADDITIONAL FUNDS. – Insert the number of days. The period of time should not exceed the time shown unless the District Engineer approves a longer period of time after determining that the longer period of time will not result in delays to the project (including contract modifications) or the Government using its funds to meet a shortfall in the sponsor’s funds. The district must determine the need for additional funds from the sponsor far enough ahead of time to permit the sponsor full use of the specified period of time. Neither party’s funds should be used to meet any shortfall in the other party’s funds.

22. TIMING OF SPONSOR’S PAYMENT FOR WORK TO BE PERFORMED USING THE GOVERNMENT’S OWN FORCES (IN-HOUSE LABOR). – Choose Option (1) if the timing of the payments from the sponsor for work to be performed using the Government’s own forces (in-house labor) will be on the Federal fiscal year basis; Option (2) if the timing of the payments from the sponsor for work to be performed using the Government’s own forces (in-house labor) will be on a quarterly basis; or Option (3) if the timing of the payments from the sponsor for work to be performed using the Government’s own forces (in-house labor) will be on the fiscal year of the Non-Federal Sponsor’s basis. Delete, in their entirety, the options not used. Whichever option is chosen it should be used consistently throughout the agreement. However, do not choose an option if that option would adversely effect the Government’s ability to perform the work using in-house labor. Also, the payments from the sponsor and availability of Federal funds must be managed to ensure that the proportional cash financing required by the agreement is maintained throughout the life of the agreement. Option (3), may be selected only if optional Article I.N. is included in the agreement (see note 12). Reminder: The sponsor’s payments provided pursuant to these options only cover work to be performed using the Government’s own forces (in-house labor). Each contract awarded by the Government for work (design or construction) on environmental infrastructure projects cannot use the continuing contracts clause and must be fully funded prior to award.

23. ARTICLE IV.C. - FINAL ACCOUNTING.

A. When a final accounting cannot be conducted in a timely manner because of outstanding claims and appeals, an interim accounting should be conducted. The district should use its best judgment in determining whether to conduct an interim accounting or wait for final resolution of outstanding claims and appeals.

B. Nothing in the agreement, prevents any interim accountings from being conducted prior to the end of the period of design.

24. ARTICLE VI – HOLD AND SAVE. - Include all the optional language after the colon only if optional Article XIV - Obligations of Future Appropriations (see note 27) is included in the agreement and the sponsor requests this optional language be added to Article VI of the agreement. In addition, if this language is included, delete the “The”. Reminder: The entire article is not optional, only the phrase shown in the brackets is optional.

25. ARTICLE XI - NOTICES. – Insert the full address of the sponsor and Government - including titles or office title/symbol of individuals to receive the notices. Do not include the name of the individual to receive the notices as it may change throughout the life of the agreement.

26. ARTICLE XIII – THIRD PARTY RIGHTS, BENEFITS, OR LIABILITIES. – Article XIII is optional and can be deleted if requested by the sponsor. If the article is deleted, renumber the remaining articles in the agreement and verify the references throughout the agreement to the remaining articles. In particular, if the article regarding Obligations of Future Appropriations is included in the agreement, and the sponsor requests the optional language in Article VI (see note 24) verify the reference contained in Article VI to the article regarding Obligations of Future Appropriations and correct, as necessary. Renumbering the remaining articles in the agreement and correction of all references to the remaining articles are not considered deviations from the model.

27. ARTICLE XIV – OBLIGATIONS OF FUTURE APPROPRIATIONS.

A. Include optional Article XIV in the agreement only if the sponsor requests this language and only after your District Counsel determines, in writing after review of information supporting the request from the sponsor, that the sponsor is a State agency or a political sub-division of the State that derives its funds for the project directly from appropriations and the sponsor has constitutional or statutory limitations prohibiting it from committing future appropriations.

B. The information to be added in the first three blanks in Article XIV.A. should identify the body that makes the appropriations. (Example: Legislature of the State of Ohio or City Counsel of the City of Cleveland)

28. ARTICLE XIV.A. - ADDITIONAL RESTRICTION ON OBLIGATIONS OF FUTURE APPROPRIATIONS. - Include all the optional language after the colon if requested by the sponsor. The information to be included in the blanks must provide more detailed information on the location of the obligation of future appropriations restriction. (Example: Section 7 of the City Charter of the City of Cleveland)

29. SPONSOR’S BUDGET CYCLE. - Choose Option (1) if the sponsor has a 1 year budget

cycle or Option (2) if the sponsor has a 2 year budget cycle. Delete, in its entirety, the option not used.

30. ARTICLE XV – TRIBAL SOVEREIGN IMMUNITY. – Include optional Article XV only if the sponsor is a Native American Tribe. The information to be included in the first and third blanks should be the name of the instrument (resolution, ordinance, etc) where the sponsor has waived sovereign immunity. The information to be included in the fourth blank should be the title of the sponsor’s representative (see note 5).

31. TITLE OF GOVERNMENT REPRESENTATIVE. – Insert the title of the Government representative signing the agreement. Do not include the name, only the title. If the signature authority is delegated to the district, the phrase “District Engineer” should be used in this location. If the signature authority is not delegated, the title shown should match the title of the Government representative shown in the first paragraph (see note 3).

32. CERTIFICATE OF AUTHORITY. - The attorney signing the Certificate of Authority cannot be the signatory to the agreement. The attorney signing the Certificate of Authority is certifying that the signatory to the agreement has the authority to obligate the sponsor. Do not forget to fill in the name in the first line prior to execution of the agreement.

33. PREPARING AGREEMENT FOR SIGNATURE.

A. When printing the agreement for execution: 1) remove the cover page, notes section, bold type references to notes, and any bold type text from the agreement; 2) ensure that the appropriate information has been included in all blanks in the agreement and the Certificate of Authority; 3) ensure that titles of articles are not the last thing at the bottom of the page; and 4) ensure that there are no page breaks which allow half empty pages. Reminder: Do not remove any of the italics from the agreement.

B. If the signature authority has been delegated to the District Engineer: 1) the title of the Government representative in the first paragraph (see note 3) should be “U.S. Army Engineer, _____ District”; 2) the title of the Government representative in the last paragraph (see note 31) should be “District Engineer”; and 3) since this is a civilian document use the civilian version of the District Engineer’s signature block.

C. If the signature authority is not delegated, the title in the first paragraph (see note 3) and last paragraph should match the title of the Government representative shown in the signature block.

D. Before signature by the Government representative, ensure that the sponsor signs and dates a minimum of four copies of the agreement, and Certification Regarding Lobbying, and that the Certificates of Authority are signed and dated by the appropriate people. The date on the first page should be filled in by the Government representative signing the agreement, not the sponsor.

E. The Government should retain two copies of the fully executed agreement. All other copies should be provided to the sponsor. A photocopy or a pdf file (as determined by the MSC and the appropriate HQ RIT) of the fully executed agreement should be provided to the MSC and to the appropriate HQ RIT within 14 days after execution.

3. The Government shall afford the Non-Federal Sponsor the opportunity to review and comment on the solicitations for [**SEE NOTE - 8 - CHOOSE: (1)** all contracts **(2)** all Government contracts], including relevant scopes of work, prior to the Government's issuance of such solicitations. In any instance where providing the Non-Federal Sponsor with notification of a contract modification is not possible prior to execution of the contract modification, the Government shall provide such notification in writing at the earliest date possible. To the extent possible, the Government also shall afford the Non-Federal Sponsor the opportunity to review and comment on all contract claims prior to resolution thereof. The Government shall consider in good faith the comments of the Non-Federal Sponsor, but the contents of solicitations, award of contracts or commencement of design using the Government's own forces, execution of contract modifications, resolution of contract claims, and performance of all work on the *Project* [**SEE NOTE - 10 - CHOOSE: (1)** , except for the *pre-Agreement design work*, **(2)** , except for the *non-Federal design work*, **(3)** , except for the *pre-Agreement design work* and the *non-Federal design work*,] shall be exclusively within the control of the Government.

[SEE NOTE - 13]

7. Notwithstanding **[SEE NOTE - 8 - CHOOSE: (1) paragraph A.3. 1. If the Government projects at any time that the collective value of the Non-

Federal Sponsor's contributions listed in the next sentence will be less than the Non-Federal Sponsor's required share of 25 percent of *total design costs*, the Government shall determine the amount of funds that would be necessary to meet the Non-Federal Sponsor's required share. The Government shall determine the amount of funds that would be necessary by subtracting from the Non-Federal Sponsor's required share of 25 percent of *total design costs* the collective value of the following: (a) the costs of the Non-Federal Sponsor's *pre-Agreement design work* as determined in accordance with paragraph B.3. of this Article; and (b) the value of the Non-Federal Sponsor's contributions under paragraph F. of this Article and Article III and Article VII of this Agreement. The Government, subject to the conditions set forth below, shall refund or reimburse to the Non-Federal Sponsor any contributions in excess of 25 percent of *total design costs* if the Government determines at any time that the collective value of the following has exceeded 25 percent of *total design costs*: (a) the Non-Federal Sponsor's contribution of funds required by paragraph B.1. of this Article; (b) the costs of the Non-Federal Sponsor's *pre-Agreement design work* as determined in accordance with paragraph B.3. of this Article; and (c) the value of the Non-Federal Sponsor's contributions under paragraph F. of this Article and Article III and Article VII of this Agreement. Any refund or reimbursement by the Government shall be subject to the following conditions:

a. the Government, subject to the availability of funds and as limited by the *Section 595 Program Limit*, shall refund or reimburse to the Non-Federal Sponsor the portion of such excess contributions that are attributable to the Non-Federal Sponsor's contributions under paragraph B.1. and paragraph F. of this Article and Article III and Article VII of this Agreement; and

b. the Government, subject to the availability of funds and as limited by the *Section 595 Program Limit* and the *Section 102 Limit*, shall reimburse to the Non-Federal Sponsor the remaining portion of such excess contributions that are attributable to the *pre-Agreement design work*.

OPTION 2 – (PARAGRAPHS B.1., B.2., AND B.2.a. – B.2.b.)

1. If the Government projects at any time that the collective value of the Non-Federal Sponsor's contributions listed in the next sentence will be less than the Non-Federal Sponsor's required share of 25 percent of *total design costs*, the Government shall determine the amount of funds that would be necessary to meet the Non-Federal Sponsor's required share. The Government shall determine the amount of funds that would be necessary by subtracting from the Non-Federal Sponsor's required share of 25 percent of *total design costs* the collective value of the following: (a) the costs of the *non-Federal design work* as determined in accordance with paragraph B.3. of this Article; and (b) the value of the Non-Federal Sponsor's contributions under paragraph F. of this Article and Article III and Article VII of this Agreement. In accordance with Article IV.B. of this Agreement, the Non-Federal Sponsor shall provide funds

in the amount determined by the Government to be necessary to meet the Non-Federal Sponsor's required share of 25 percent of *total design costs*.

2. The Government, subject to the conditions set forth below, shall refund or reimburse to the Non-Federal Sponsor any contributions in excess of 25 percent of *total design costs* if the Government determines at any time that the collective value of the following has exceeded 25 percent of *total design costs*: (a) the Non-Federal Sponsor's contribution of funds required by paragraph B.1. of this Article; (b) the costs of the *non-Federal design work* as determined in accordance with paragraph B.3. of this Article; and (c) the value of the Non-Federal Sponsor's contributions under paragraph F. of this Article and Article III and Article VII of this Agreement. Any refund or reimbursement by the Government shall be subject to the following conditions:

a. the Government, subject to the availability of funds and as limited by the *Section 595 Program Limit*, shall refund or reimburse to the Non-Federal Sponsor the portion of such excess contributions that are attributable to the Non-Federal Sponsor's contributions under paragraph B.1. and paragraph F. of this Article and Article III and Article VII of this Agreement; and

b. the Government, subject to the availability of funds and as limited by the *Section 595 Program Limit* and the *Section 102 Limit*, shall reimburse to the Non-Federal Sponsor the remaining portion of such excess contributions that are attributable to the *non-Federal design work*.
