

SECTION 221 – FCA 1970, AS AMENDED

**MODEL MOU
FOR
IN-KIND CONTRIBUTIONS PROVIDED OR PERFORMED
BY A NON-FEDERAL INTEREST PRIOR TO
EXECUTION OF A FEASIBILITY COST SHARING AGREEMENT**

MODEL HISTORY:

12 December 2012 - Model originally approved.

Note: For information regarding the approval authority and signature authority for a project specific agreement developed using the current version of the In-Kind MOU for FCSA model, go to the Implementation Memo link to see the In-Kind MOU Model Implementation Memo, dated 23 June 2008. The delegation and execution authorities and procedures in the June 2008 memo also apply to this model.

MODEL APPLICABILITY:

The In-Kind MOU for FCSA model is one of three model MOUs developed to address in-kind contributions to be provided or performed by a non-Federal interest prior to execution of the applicable cost sharing agreement. The other models address design and construction activities provided or performed as in-kind contributions.

This model should be used if the non-Federal interest intends to provide or perform feasibility level activities prior to execution of a Feasibility Cost Sharing Agreement. It should not be used if the sponsor intends to provide or perform design or construction activities.
