MODEL APPLICABILITY:

The Section 130 Government Performance Design model is one of six models developed for providing environmental assistance to non-Federal interests in Placer and El Dorado Counties, California pursuant to Section 130 of the Energy and Water Development Appropriations Act, 2004, Public Law 108-137. The other models address different combinations of design, construction, design and construction, and whether the work will be performed by the sponsor or the Government.

This model should be used when the sponsor requests only design of the project be undertaken in the proposed agreement and the Government will be performing the work. Optional language is included in the model in case the sponsor wants to perform some of the design. This model should not be used for implementation of projects under any of the other environmental infrastructure authorities, an agreement addressing construction only of a Section 130 project, an agreement addressing both design and construction of a Section 130 project, nor for Section 130 projects where all the work will be performed by the sponsor.
