

Section 3028 of WRRDA 2014 amends Section 2035 of WRDA 2007 by adding that the Federal Advisory Committee Act (FACA) does not apply to a safety assurance review conducted under Section 2035 of WRDA 2007. FACA will not be applied to safety assurance reviews. This change will be incorporated into the update of **Engineer Circular 1165-2-214: Water Resource Policies and Authorities, Civil Works Review**.
