FOR FURTHER INFORMATION CONTACT: For licensing issues, Ms. Cindy Wallace, Office of Research & Technology Applications, (256) 315–0895.

SUPPLEMENTARY INFORMATION: Two liquid crystal display panels, stacked together into a flat compact unit, in conjunction with a dedicated processor producing the appropriate video signals to drive the panels, generates a pair of polarization-encoded left and right images and exhibits them as a stereo image that is viewable through a pair of standard polarized glasses.
