

CECW-ET

**DEPARTMENT OF THE ARMY
U.S. Army Corps of Engineers
Washington, DC 20314-1000**

EM 1110-2-2702

Manual
No. 1110-2-2702

1 January 2000

**Engineering and Design
DESIGN OF SPILLWAY TAINTER GATES**

Table of Contents

Subject	Paragraph	Page
Chapter 1		
Introduction		
Purpose	1-1	1-1
Applicability	1-2	1-1
References	1-3	1-1
Distribution	1-4	1-1
Background	1-5	1-1
Mandatory Requirements	1-6	1-2
Chapter 2		
Applications		
General	2-1	2-1
Advantages and Disadvantages of Tainter Gates vs Other Spillway Crest Gates	2-2	2-1
Use on Corps of Engineers Projects	2-3	2-3
Chapter 3		
Tainter Gate Design		
Introduction	3-1	3-1
Geometry, Components, and Sizing	3-2	3-1
Material Selection	3-3	3-13
Design Requirements	3-4	3-13
Analysis and Design Considerations	3-5	3-21
Serviceability	3-6	3-36
Design Details	3-7	3-37
Fracture Control	3-8	3-41
Chapter 4		
Trunnion Assembly		
General Description	4-1	4-1
Structural Components	4-2	4-1
Material Selection	4-3	4-2
Design Requirements	4-4	4-6
Analysis and Design	4-5	4-7
Serviceability Requirements	4-6	4-8
Design Details	4-7	4-9

Chapter 5

Gate Anchorage Systems

General Description.....	5-1	5-1
Components.....	5-2	5-1
Material Selection	5-3	5-5
Design Requirements	5-4	5-5
Analysis and Design Considerations	5-5	5-6
Serviceability.....	5-6	5-10
Design Details	5-7	5-11

Chapter 6

Trunnion Girder

General Description.....	6-1	6-1
Components.....	6-2	6-1
Material Selection	6-3	6-1
Design Requirements	6-4	6-3
Analysis and Design Considerations	6-5	6-4
Serviceability Requirements	6-6	6-6
Design Details	6-7	6-7
Fracture Control	6-8	6-7

Chapter 7

Operating Equipment

Introduction	7-1	7-1
Machinery Description.....	7-2	7-1
Machinery and Gate Loads	7-3	7-2
Machinery Selection.....	7-4	7-4

Chapter 8

Corrosion Control

General Considerations	8-1	8-1
Material Selection and Coating Systems.....	8-2	8-1
Cathodic Protection.....	8-3	8-1
Design Details	8-4	8-2

Appendix A

References

Appendix B

Design and Specification Considerations for Fabrication and Erection

General Considerations	B-1	B-1
Shop Fabrication	B-2	B-2
Field Fabrication and Erection	B-3	B-6

Appendix C

Operation and Maintenance Considerations

General	C-1	C-1
Design Considerations.....	C-2	C-1
Inspection	C-3	C-3

Appendix D

Data for Existing Tainter Gates
