

The Design Guide (DG) series is issued under the standard design medium by the Engineering Division, Military Programs Directorate, Office of the Chief of Engineers, U.S. Army.

This guide governs design of Army Continuing Education System (ACES) Centers. The Army Continuing Education System Program is contained in AR 621-5. ACES Centers support the general academic, technical and vocational education of military personnel of all grades and ranks.

This guide provides planning and design guidance discussed separately and in the form of example designs which establish concept alternatives for evaluating project designs. This guide is applicable to all new construction projects for Army ACES Centers (Facility Category Code 740-25) and projects involving modernization of existing facilities.

Preparation of this guide was under the direction of the Special Projects Section, Structures and Buildings Systems Branch, of the Engineering Division, and is based on the results of an architectural services contract with the firms of John Carl Warnecke & Associates and George M. Ewing Company, New York, New York and Washington, D. C., under Contract No. DACA 73-73-C-0020.

Material related to functional needs has been developed in conjunction with, and approved by, the Education Services Division, Education Directorate, U.S. Army Adjutant General Center, (DAAG-EDS)

Distribution of this guide is limited. Additional essential copies are available from the OCE Publications Depot, 890 South Pickett Street, Alexandria, Virginia 22304.

Users are invited to send comments and suggested improvements to HQDA (DAEN-MPE-B) WASH DC 20314.

FOR THE CHIEF OF ENGINEERS:

A handwritten signature in black ink, appearing to read "Lee S. Garrett". The signature is written in a cursive style with a large initial "L" and "G".

LEE S. GARRETT  
Chief, Engineering Division  
Military Programs
