APPENDIX G
PLANT, REVOLVING FUND
PLANT REPLACEMENT AND IMPROVEMENT PROGRAM (PRIP)
(RCS CECW-D-1)

G-1.1. **Purpose and Scope.** This appendix provides policy and general procedural guidance for Plant Replacement and Improvement Program (PRIP) development. To provide a uniform approach for program development and justification, the various plant items have been grouped into categories. Guidance for the electronic transmission of automated data for submittal of limited program recommendations is contained in the 1130 series of Engineer Regulations (ERs). Procedures for preparing input, for generating these reports, and for updating data are also included in the ER 1130 series. From time to time, additional detailed guidance will be provided by CERM-B in supplemental memoranda.

G-1.2. **Program Development Concepts.**

a. **Categories.** All plant items should be identified by category. Detailed definitions for the categories and subcategories can be found in Chapter 15, ER 37-2-10, Accounting and Reporting Civil Works Activities. The categories and subcategories authorized for use with this program submission are as follows:

Category/Subcategory Title	Category/Subcategory Code
Land	00
Structures	10
Aircraft	20
Dredges	30
Other Floating Plant	40
Total Mobile Land Plant	50
Passenger Vehicles	5V
Other Mobile Land Plant	5X
Total Fixed Land Plant	60
Communications Equipment	6C
Other Fixed Land Plant	6X
Tools, Office Furniture, and Equipment	70
Software	80
Total Automatic Data Processing Hardware	90
Computers and Peripherals	9A
Computer Aided Design and Drafting	9D
Water Control Data Systems	9W

b. **Major and Minor Items.** For programming purposes all items of plant will be classified as either major or minor items. Major Items will be further classified as either new or continuing items.

(1) **Major Items.** New Major Items consist of those items which exceed HQUSACE authority and which require submittal through the Assistant Secretary of the Army (CW) to the Office of Management and Budget (OMB) and the Congressional Committees on Appropriations for concurrence. The limit of Chief of Engineers authority is \$700,000. However, for purposes of the FY 02 program submission, all new requirements estimated to cost over \$525,000 will be treated as New Major Items. Continuing Major Items consist of those acquisitions costing more than \$700,000 which were previously submitted to and concurred in by OMB; and authorized by the Congressional committees. An update shall be submitted on all continuing major items with scheduled expenditures in FY 01 and/or FY 02. In the absence of Congressional action on the current year appropriations, the President's current year program will be used along with the assumption that the program request for continuing items and new starts will be enacted by 1 October of the current year.

(2) **Minor Items.** For FY02, minor items are those items which exceed the capitalization threshold of \$25,000 but which do not exceed the Chief of Engineers authority level.

G-1.3. **Program Guidance.** Major Subordinate Command (MSC) Commanders will develop and submit a total PRIP for their command to include district requirements. Tabulation of program requirements will reflect the total MSC program and will show both MSC and district priorities for each item of plant. Each item of plant (major and minor) shall be submitted with full justification. This justification shall be submitted on ENG Form 4613-R for major items and ENG Form 4943-R for minor items. Electronic facsimiles of these forms are acceptable. In addition, major item new starts proposed for FY 02 shall be accompanied by economic and affordability analyses as specified in CECW-BA Memorandum dated 10 March 94, Subject: Revised Submittal Requirements for Plant Replacement and Improvement Program (PRIP) Major Item New Starts. A three year PRIP will be submitted annually (15 October) showing the current year, the program year, and the follow-on two out-years using ENG Form 1978-R or an approved electronic facsimile. The three year PRIP shall be updated only after the mid-year review at the end of the second fiscal quarter or whenever significant changes occur. A copy of the semiannual update and changes shall be forwarded to CERM-B not later than 15 April.

G-1.4. **Submission Requirements and Dates.** See Table 2 of the main part of this EC.
