

a. Diver-operated corer with parts identified

b. Diver and partner operating corer underwater

c. Divers capping bottom of core after pulling it out of the seafloor

Figure 10-8. Photograph of a hand-held diver-operated sampler available to government agencies through NAVFAC's Ocean Construction Equipment inventory. Note: Safety is a very important consideration for Corps of Engineers projects. Safety items should be worn, as appropriate, for the particular drilling and sampling operations. (Figure provided by the U.S. Naval Facilities Engineering Service Center)
