Construction
QUALITY ASSURANCE REPRESENTATIVE*S GUIDE
FOREWORD

This guide is one of four volumes reprinted with revisions from guides first published in 1964. The reason for their existence and continuance is to provide construction representatives, those with quality control/quality assurance responsibilities, a reliable checklist type reference for each phase of construction.

Quality Assurance/Quality Control (QA/QC) representatives will find the information useful and appropriate for their roles of assuring and controlling construction quality in accordance with the plans and specifications. The guide will, therefore, become a valuable reference when implementing project plans and specifications. Their contents will also help refresh the memory of experience, training, and good old common sense. The application of sound knowledge together with a proper sense of responsibility and use of authority will result in meaningful decision making, a factor considered essential for effective quality assurance/quality control. The objective is to produce quality products for our customers worldwide.

FOR THE COMMANDER:

MILTON HUNTER
Colonel, Corps of Engineers
Chief of Staff

This Volume 1 of EP 415-1-261 supersedes Volume 1 EP 415-1-261, November 1981
