

TABLE OF CONTENTS

<u>CHAPTER</u>	<u>TITLE</u>
1	General Information for HTRW Projects
2	Ground Water Extraction Systems
	2.1 Ground Water Extraction Wells
	2.2 Ground Water Extraction Trenches
3	Landfill Covers and Liners
	3.1 Landfill Covers and Liners
	3.2 Waste Grading and Subgrade Preparation
	3.3 Low Permeability Clay Layer
	3.4 Geosynthetic Clay Liner (GCL)
	3.5 Geomembrane
	3.6 Drainage Layer
	3.7 Geotextile
	3.8 Pipe and Appurtenances
	3.9 Cover Soil Layer
	3.10 Vegetative Cover Layer and Erosion Control
	3.11 Test Fill
	3.12 Geogrid
	3.13 Gas Venting/Collection
	3.14 Operation and Maintenance
4	Soil-Bentonite Slurry Walls
5	Solidification/Stabilization
6	Soil Vapor Extraction Systems
7	Ground Water Treatment Facilities
	7.1 General Information for Ground Water Treatment Facilities
	7.2 Pumps, Piping, Valves, and Tankage
	7.3 Metals Precipitation
	7.4 Filtration
	7.5 Carbon Adsorption
	7.6 Air Stripping
	7.7 Ultraviolet Oxidation
	7.8 Chemical Handling and Sludge Management
