

LOST CREEK POOL RAISE

Appendix E

Safety Plan

1. All Corps personnel in the field will wear hard hats for identification and will be fully authorized to act on any matter dealing with safety.
2. All instances of safety violations, hazardous conditions, or incidents, will be documented and logged.
3. Personnel should be firm, but tactful, in dealing with the public to protect them from hazards. If cooperation cannot be obtained, the situation should be reported immediately to the Resident Engineer.
4. If assistance is required to remove the public from the pool area, assistance will be available from the Resident Engineer's office and the Park Ranger will be dispatched.
5. All personnel are cautioned to be alert during surveillance activities due to the increased dangers of falls due to steep terrain, mud, and banks caving in from wave action. These dangers should be pointed out to any of the public observed near the reservoir.
6. The PAO and Safety Office will take action to inform the public prior to the pool raise of hazards expected.
7. All access roads into the pool area will be closed to the public.
