

<b>PHASE CODE</b>	<b>PHASE</b>	<b>DEFINITION/APPLICATION</b>	<b>APPROS.</b>
C	Construction	For projects in Construction phase	C
F	Feasibility	For studies in Feasibility phase.	I
OJ	Operation Joint Activities	For joint operations activities at O&M multipurpose hydropower projects (Cat/Class 300) authorized for multiple purposes.	O&M
MJ	Maintenance Joint Activities	For joint maintenance activities at O&M multipurpose hydropower projects (Cat/Class 300) authorized for multiple purposes.	O&M
M	Maintenance	For maintenance activities in O&M	O&M
O	Operation	For operations activities in O&M	O&M
P	Preconstruction Engineering and Design	For projects in PED phase	I
R	Reconnaissance	For studies in Reconnaissance phase	I

<b>PHASE STATUS CODE</b>	<b>PHASE STATUS</b>	<b>DEFINITION/APPLICATION</b>	<b>APPROS.</b>
CN	Continuing Phase	For studies and projects continuing the phase. All O&M activities will use CN unless the request is for MM or MR, then use the completion of the maintenance work.	I, C, O&M
LY	Last Year of Phase	For studies or projects in the last year of the phase. For construction the code is for project completion, not completion of a construction contract.	I, C
NP	New Phase	For studies in Feasibility phase and Continuing Authority Projects.	I, C, O&M
NS	New Start	For starting Reconnaissance, PED or Construction phase activities.	I, C

PHASE ACTIVITY CODE	ACTIVITY	DEFINITION/APPLICATION	APPROPS.
F	Feasibility	For studies in Feasibility phase.	I
P	Preconstruction Engineering and Design	For projects in PED phase not described in more detail in other Activity Codes.	I
R	Reconnaissance	For studies in Reconnaissance phase not described in more detail in other Activity Codes.	I
WA	Watershed Assessments - recon level (Section 729)	Watershed Assessment - recon level. A study that meets the criteria of Section 729 of WRDA 86 resulting in a Watershed Management Plan that identifies a broad array of possible actions, is expected to result in implementation by others, and is not dependent on the authorization of a project for Corps implementation.	I
WF	Watershed Assessments - feasibility level (Section 729)	Watershed Assessment - feasibility level. A study that meets the criteria of Section 729 of WRDA 86 resulting in a Watershed Management Plan that identifies a broad array of possible actions, is expected to result in implementation by others, and is not dependent on the authorization of a project for Corps implementation.	I
BO	Biological Opinion (legal requirement)	For Biological Opinion activities.	C
BU	Beneficial Use of Dredged Material + Sec 204	For beneficial use activities and Section 204 items.	C
C	Construction	For all construction activities in Construction not described in more detail in other Activity Codes.	C
CF	Studies during construction under a programmatic authority.	To allow for study activities in the Construction account; for specifically funded programmatic authorities in the ENR BL only.	C
CM	Monitoring	Post-construction environmental monitoring for ecosystem restoration and environmental mitigation and post construction monitoring associated with other activities such as beach nourishment which occurs after construction is physically complete prior to fiscal completion.	C
CP	Design during construction under a programmatic authority.	To allow for design activities in the Construction account; for specifically funded programmatic authorities in the ENR BL only.	C
CS	Construction for dam safety assurance, seepage, static instability requested by appropriation line item.	For projects in Construction phase for dam safety assurance, seepage and static instability requested by appropriation line item.	C
DC	Deficiency Correction	For deficiency correction activities.	C
DF	Dredged Material Disposal Facility (DMDF)	For construction and expansion of all Dredged Material Disposal Facilities. To be listed as individual work packages.	C
DP	Construction for dam safety assurance, seepage, static instability included in the dam safety national program account.	For projects in Construction phase for dam safety assurance, seepage and static instability under the dam safety national program account.	C
MR	Rehabilitation	For (major) Rehabilitation projects.	C
MT	Mitigation	by section 2036(a) of WRDA '07 for mitigation of fish and wildlife and other habitat associated with Corps projects as contained in an	C or O&M
SM	Federal Sand + Sec 111	For Federal sand mitigation activities and Section 111 items.	C
SS	Study for dam safety assurance, seepage, static instability leading to construction included in the dam safety national program account.	For study activities specifically pertaining to dam safety assurance, seepage and static instability.	C
DM	Dredged Material Management Plans (DMMPs)	To conduct and prepare Dredged Material Management Plans (DMMPs).	O&M
DR	Maintenance Dredging	For all maintenance dredging activities.	O&M
EP	Strategic Sustainability Performance Plan Projects	For projects meeting the requirements of SSPP program and EO 13514.	O&M

HI	Hydraulic Steel Structure Safety Inspections & Evaluations	For periodic safety inspections and reports, capacity ratings, seismic evaluation, special inspections, weld inspections, fit for service analysis, etc.	O&M
HR	Hydraulic Steel Structure Safety Repairs & Maintenance Work	For maintenance and repairs to stoplogs, gates and gate operating systems, painting, safety upgrades, component replacements, component strengthening etc.	O&M
LS	Levee Safety Studies and Evaluations	For all levee screenings, IES's and Levee Safety Modification Reports.	O&M
M	Maintenance	For routine maintenance activities in O&M not described in more detail in other Activity Codes.	O&M
MB	Bridge Maintenance & Repairs Work	For all Bridge maintenance and repair activities.	O&M
MC	Maintenance of Breakwaters, Jetties and Coastal Structures	For maintenance and repair activities of all Breakwaters, Jetties, and other Coastal Structures.	O&M
MD	Dam Maintenance and Repairs	For all Dam maintenance and repair activities.	O&M
MF	Maintenance of Dredged Material Disposal Facilities	For all maintenance of Dredged Material Disposal Facilities.	O&M
MJ	Maintenance Joint Activities	For joint maintenance activities at O&M multipurpose hydropower projects (Cat/Class 300) authorized for multiple purposes.	O&M
MK	Lock Maintenance and Repairs	For all Lock maintenance and repair activities.	O&M
ML	Levee Safety Maintenance & Repairs Work	For all Levee Safety maintenance and repair activities.	O&M
MM	Major Maintenance	For major maintenance activities. This Activity Code is to be used if the maintenance item exceeds the major maintenance threshold. See the major maintenance write up.	O&M
O	Operations	For routine operations activities in O&M not described in more detail in other Activity Codes.	O&M
OB	Bridge Operations, Inspections & Evaluations	For Bridge-related operations activities and all Bridge safety inspections and reporting.	O&M
OC	Caretaker Activities	To perform minimal project operations activities for Caretaker status.	O&M
OJ	Operation Joint Activities	For joint operations activities at O&M multipurpose hydropower projects (Cat/Class 300) authorized for multiple purposes.	O&M
OL	ICW Levee Safety Inspections	For all Levee Safety, ICW inspections.	O&M
OR	Rehabilitation Reports	To conduct and prepare (major) Rehabilitation Reports.	O&M
OV	Vertical Datum	For project vertical datum corrective actions.	O&M
SI	Dam Safety Interim Risk Reduction Measures	For Dam Safety Interim Risk Reduction Measures (IRRM) at DSAC I, II, and III dams. For example, developing IRRM Plans, Investigations and Studies, Hydrologic and Seismic Evaluations, Enhanced Instrumentation and Monitoring, Updating Inundation Maps, Communication System Upgrades; Flood Warning Systems, etc.	O&M
SO	Dam Safety Other	For Other, non-routine Dam Safety activities, such as evaluations and repairs at DSAC IV and V dams. For example, Investigations and Studies, Hydrologic and Seismic Evaluations, etc.	O&M
SR	Dam Safety Routine	For routine Dam Safety activities. For example, Annual and Periodic Inspections, Periodic Assessments, Instrumentation Data Management, Surveys, Monitoring, etc.	O&M
XA	FUSRAP PA/SI	For FUSRAP PA/SI Phase.	FUSRAP
XB	FUSRAP RI-ROD	For FUSRAP RI-ROD Phase.	FUSRAP
XC	FUSRAP RA	For FUSRAP RA Phase.	FUSRAP
