Subject: DQA RFC for Deer Creek

Mr. Becker:

This is in further response to your Request for Correction (RFC) concerning the discharge frequency determination made in the U.S. Army Corps of Engineers report entitled "Review of Debris Production and Level-of-Protection, Deer Creek Debris Basin" dated November 29, 1999.

As we discussed yesterday, the Corps will need an additional 32 working days from 29 November to completely process your RFC, due to continued coordination. We hope to have a final response to you by 14 January. Should you have questions or require further information, I can be reached at 202-761-8557 or e-mail at Richard.C.Frank@usace.army.mil. I am responding for Ms. Linda Genovese, the Interim Information Disseminating Activity administrator who is on an extended assignment.

Richard C. Frank
Office of the Chief Counsel
