

SUPERFUND REMEDIATION VENDOR ENGAGEMENT AND NETWORKING FORUM

EPA invites qualified small and socioeconomic businesses to an in-person Superfund Remediation Vendor Engagement and Networking Forum on **Tuesday, July 23, 2024**. The Forum targets socioeconomic businesses that operate under North American Industry Classification System (NAICS) Codes **541620** and **562910**. It will feature matchmaking sessions with EPA, the U.S. Army Corps of Engineers and existing EPA remediation contractors. The Forum will also afford general networking opportunities for identifying potential industry teaming partners.

Tuesday, July 23 from 1:00 - 4:00 pm

at the William D. Ruckelshaus Conference Center,
William Jefferson Clinton Federal Building,
1201 Constitution Avenue NW, Washington, DC 20460

REGISTER TODAY

The registration deadline is July 8, 2024.

Be sure to register early to secure your one-on-one matchmaking sessions.
For additional information, contact **Dianna Price** at price.dianna@epa.gov.

Superfund Remediation Work

EPA's Superfund Program is responsible for cleaning up some of the nation's most contaminated land and for responding to environmental emergencies. Remediation contracting under the Program may include:

- Remedial Investigation/ Feasibility Studies (RI/FS), risk assessments, treatability studies, as well as technical assistance.
- Personnel, materials and services necessary to implement EPA-led remedial or non-time critical removal actions at Superfund sites.
- Technical Support to EPA to oversee EPA contractor-implemented remedial services or removal actions under the remedial action contract.
- Data analysis, sampling and well drilling for environmental remediation services.
- Design and engineering services, including architecture and engineering (A&E) services to prepare the remedial design.
- Technical enforcement support (e.g., oversight) of the environmental remediation work financed and performed by other parties including Federal agencies, states, tribes or PRPs.

Information on the Superfund Program and clean-up process is available at:
<https://www.epa.gov/superfund>.
