*This is the **Federal Drive** show blog. Here you can listen to our interviews, find more information about the guests on the show each day, as well as links to other stories and resources we discuss.*

Today's Interviews:

Jeffery Hooghuse
Chief Value Officer
Army Corps of Engineers

[Download Audio](#)

Army budgets promise to be lean for many years to come. But the Army Corps of Engineers has quietly controlled costs for a long time using value engineering. It's a cost-cutting technique outlined in Circular 131.

The Office of Federal Procurement Policy recently updated the guidance for the first time in 20 years. Jeffery Hooghuse is chief value officer at the Army Corps of Engineers.
