

Project Delivery Business Process

How & Where VE Fits into the Project Delivery Business Process

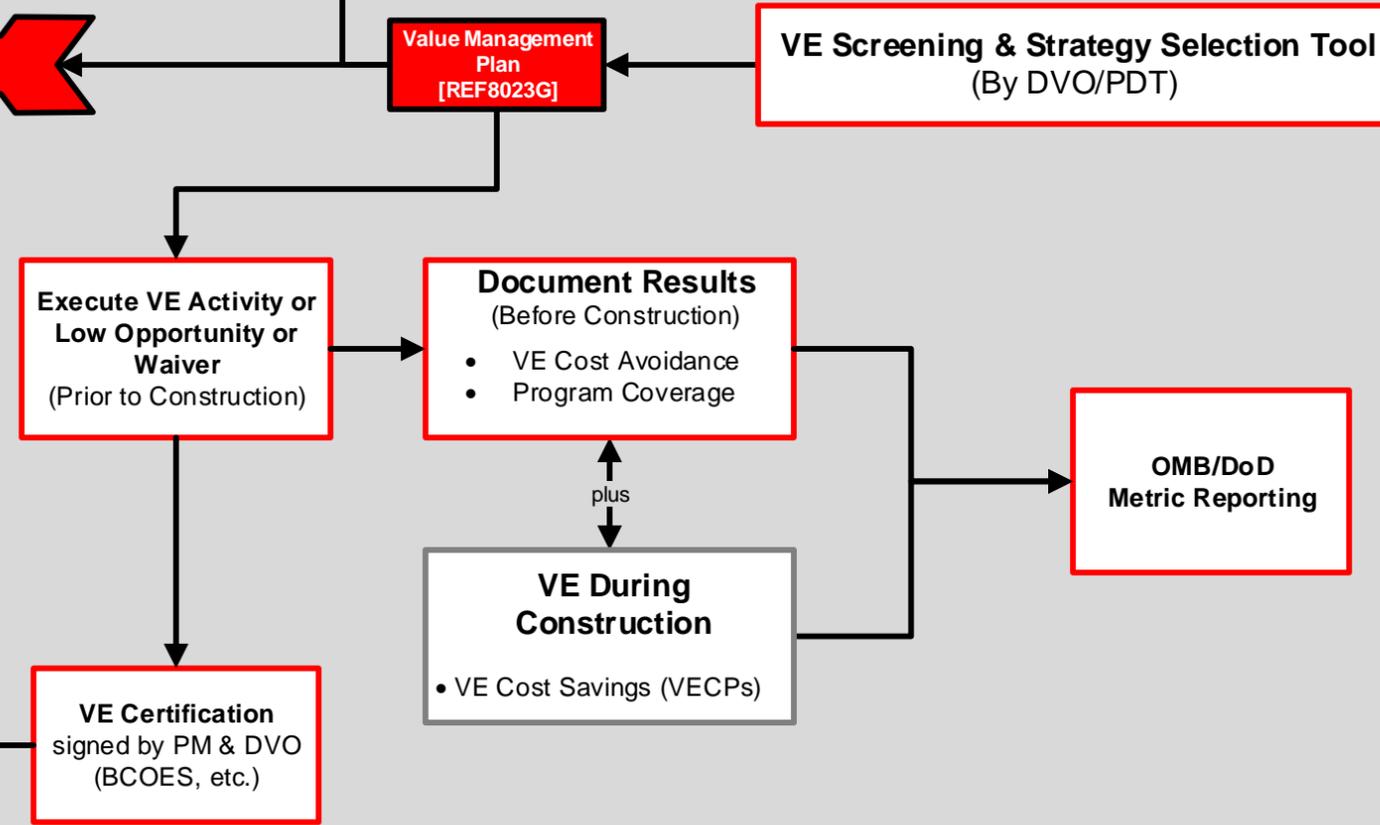

<http://www.usace.army.mil/ValueEngineering.aspx>

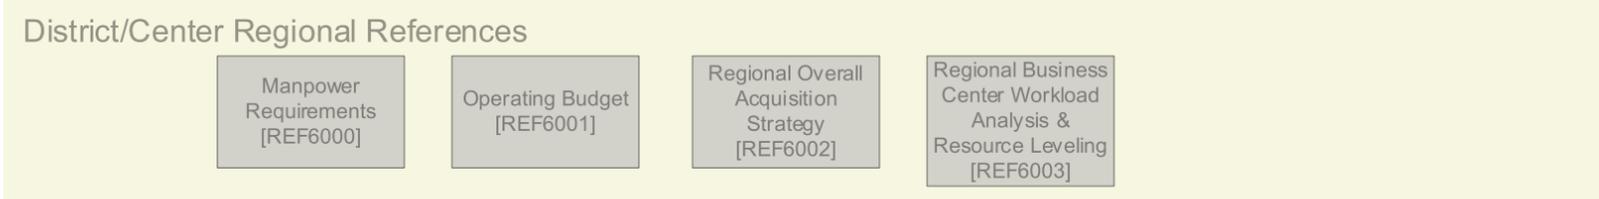

The project manager is responsible for ensuring every task is properly accounted for within the total funding request; value engineering is one of those tasks that must be funded from the project budget.

PM shall coordinate with the PDT (including the DVO) to establish a reasonable estimated schedule and budget for VE to ensure adequate funds are available.

PM coordinates with the PDT (including DVO) to document what worked well and what did not. Also, could use the value methodology to facilitate after action review.
