XX	MVD	RI	CIVIL WORKS WATER MANAGEMENT SYSTEM (CWMS)	5,000,000	Funds are being used to continue the ongoing Corps effort to develop watershed- based hydrologic and hydraulic models for its projects to inform operational decisions consistent with the authorized project purposes.
XX	ERDC	RI	COASTAL INLET RESEARCH PROGRAM	2,300,000	Funds are being used to continue ongoing research and development activities within coastal and navigation systems to support the optimization of coastal sediment resources and quality studies on coastal improvement projects (\$2.0M), and updates to the Corps Shoaling Analysis Tool (CSAT) (\$0.3M).
XX	ERDC	RI	COASTAL OCEAN DATA SYSTEM (CODS)	9,800,000	Funds are being used to continue Corps Nationwide Nearshore Wave Process data delivery (\$1.8M), as well as ongoing research and development activities including Probabilistic Life Cycle Analysis Model Modernization (\$1.9M), StormSim Guidance (\$1.3M), Coastal Hazards System Long-Term Sustainability (\$1.3M), Coastal and Inland Compound Flooding (\$2.4M), and Open Coast Physical Processes (\$1.1M).
XX	MVD	RI	CULTURAL RESOURCES (NAGPRA/CURATION)	1,500,000	Funds are being used to provide overall management of the Corps' NAGPRA programs and serves as a centralized base for compliance, an information source, and contracting. The Corps facilitates consistent nationwide NAGPRA program implementation and operation, which includes inventorying and summarizing collections, consulting with Indian tribes, researching cultural affiliation and aboriginal occupation, and returning NAGPRA collections to the appropriate Indian tribes.
XX	SWD	RI	CYBERSECURITY	15,500,000	Funds are being used for annual activities and to advance the priority areas outlined in OMB Circular M-22-16 (\$10.5M); Zero Trust Implementation, Sector Risk Management Agency support, Securing Infrastructure Investments, Human Capital, and Technology Ecosystems Zero Trust Implementation, Sector Risk Management Agency support, Securing Infrastructure Investments, Human Capital, and Technology Ecosystems (\$2.5M); and Continue deployment of the Operational Technology Systems (\$2.5M).
XX	NAD	RI	DREDGE MCFARLAND READY RESERVE	12,660,000	Funds are being used to maintain the Dredge McFarland in ready reserve status with sufficient crew to respond within 72 hours when directed to do so for urgent and emergency purposes, and to perform 70 days of required training work in the Delaware River and Bay as specified in its authorization, with dredging work charged to the project dredged.
XX	MVD	RI	DREDGE WHEELER READY RESERVE, LA	27,000,000	Funds are being used to perform routine maintenance of the Dredge Wheeler and maintain sufficient crew to respond within 72 hours when directed to do so.
XX	IWR	RI	DREDGING DATA AND LOCK PERFORMANCE MONITORING SYSTEM	1,500,000	Funds are being used to provide dredging and lock analytical, technical, and data support for Corps Headquarters, division, and district offices to support operational and strategic management decisions; for data management including quality control; providing essential upgrades, security and user support; training; maintaining and upgrading the automatic data recording of lock timing data, and developing additional data warehouse reports.
XX	ERDC	RI	DREDGING OPERATIONS AND ENVIRONMENTAL RESEARCH (DOER)	10,300,000	Funds are being used to continue developing tools to minimize dredging challenges while optimizing dredged material management and beneficial use of dredged materials (\$5M); continuing research and development activities associated with Innovative Construction and Operation Technologies (\$2.8M) and Modernized National Physical Modeling Cap to Test Construction Methods (\$2.5M).
XX	ERDC	RI	DREDGING OPERATIONS TECHNICAL SUPPORT (DOTS) PROGRAM	5,050,000	Funds are being used to continue technical reach back support to Corps field offices encountering navigation and dredging issues (\$0.3M), as well as continuing research and development activities associated with Dredging Data Assimilation for Characterizing Sedimentation Patterns (\$2.75M), and Nationwide Implementation of Dredge Scheduling and Placement Optimization (\$2.0M).

XX	HQ	RI	EARTHQUAKE HAZARDS REDUCTION PROGRAM	400,000	Funds are being used to provide technical support to Corps offices about the seismic risk of the buildings that the Corps owns or operates and ways to reduce that risk.
XX	ERDC	RI	ENGINEERING WITH NATURE	3,650,000	Funds are being used to provide solutions for Multi-Purpose Value (\$1.1M), and develop and define sound, evidence-based engineering and operational practice for nature-based solutions (\$2.55M).
XX	HQ	RI	FACILITY PROTECTION	1,500,000	Funds are being used to support security risk assessment and prioritization efforts for Civil Works projects under the Critical Infrastructure Protection and Resilience (CIPR) Program using a risk-based approach, in order to enhance the security, protection, and resilience of Civil Works projects.
XX	HQ	RI	FISH AND WILDLIFE OPERATING FISH HATCHERY REIMBURSEMENT	8,733,000	Funds will be transferred to the USFWS to produce and release approximately 12 million mitigation fish at 45 different receiving waters impacted by 37 Corps dams to meet mitigation requirements
XX	IWR	RI	HARBOR MAINTENANCE FEE DATA COLLECTION	1,026,000	Funds are being used to document the operation of the trust fund, analyze waterborne commerce shipments and vessel movement data.
XX	LRD	RI	INLAND WATERWAY NAVIGATION CHARTS	3,000,000	Funds are being used to produce and maintain electronic charts for safe inland waterway navigation.
XX	IWR	RI	INSPECTION OF COMPLETED FEDERAL FLOOD CONTROL PROJECTS	12,500,000	Funds are being used to provide central oversight and support for the Corps effort to enable local communities to understand the risks associated with the levee systems that the Corps constructed for them, including risk assessments of certain high-risk Federally authorized levee systems.
XX	ERDC, HQ	RI	MONITORING OF COMPLETED NAVIGATION PROJECTS (MCNP)	3,800,000	Collect information about changes in sediment transport, water levels, currents, waves, flushing, river flows, ice, structure deterioration, and other coastal and river hydraulic phenomena with associated marine transportation and environmental impacts in order to identify operational and maintenance efficiencies and to improve project performance.
XX	SAD	RI	NATIONAL COASTAL MAPPING PROGRAM	4,500,000	Collect survey data and quantify coastal changes that have occurred since previous surveys for the formulation of sediment budgets, quantifying area change of sensitive habitats like submerged aquatic vegetation and wetlands, identifying patterns of erosion and accretion, and for assessing the condition of coastal infrastructure that impact the Corps' ability to support its commercial navigation mission.
XX	IWR	RI	NATIONAL DAM SAFETY PROGRAM (PORTFOLIO RISK ASSESSMENT)	13,500,000	Funds are being used to manage the overall effort to reduce the risk of loss of life and property damage that would occur from the failure of a Corps dam.
XX	HQ	RI	NATIONAL EMERGENCY PREPAREDNESS PROGRAM (NEPP)	6,500,000	Funds are being used to support Corps readiness to provide rapid response to disaster.
XX	IWR	RI	NATIONAL (LEVEE) FLOOD INVENTORY	7,500,000	Operate, maintain, and update the National Levee Database to reflect the best available risk-based information on levee systems, and to implement software revisions to improve its functionality and usability based on user feedback.
XX	HQ	RI	NATIONAL (MULTIPLE PROJECTS) NATURAL RESOURCES MANAGEMENT ACTIVITIES	4,500,000	Funds are being used to conduct program initiatives such as the park ranger uniform contract; "Handshake" partnerships to engage communities; the Water Safety Center of Expertise; the publishing and printing of NRM materials; support to the volunteer clearinghouse.
XX	IWR	RI	NATIONAL PORTFOLIO ASSESSMENT FOR REALLOCATION	500,000	Funds are being used to assess data and develop a consistent national approach to achieving consistent and sustainable water withdrawals (permanent reallocations and surplus water) including identification of status and challenges for USACE Reservoirs and to conduct initial assessments of pending reallocation requests.

XX	IWR	RI	OPTIMIZATION TOOLS FOR NAVIGATION	390,000	Funds are being used for the assessment and maintenance of the National Navigation Operation & Maintenance Performance Evaluation, maintenance of a comprehensive vessel lines library, and technical input and support for ongoing development or improvements to the Resident Management System database.
XX	IWR	RI	PERFORMANCE BASED BUDGETING SUPPORT PROGRAM	2,000,000	Funds are being used for Civil Works Budget Development Support for Hydropower.
XX	IWR	RI	RECREATION MANAGEMENT SUPPORT PROGRAM	1,400,000	Funds are being used to provide a nationwide funding source for centralized procurement of items used by all operating projects with a natural resources management program. Funding also provides for the Recreation One-Stop Initiative (previously funded separately).
XX	ERDC	RI	REGIONAL SEDIMENT MANAGEMENT PROGRAM	2,900,000	Funds are being used to develop regional sediment management strategies that link sediment management actions across multiple authorized Corps projects to demonstrate cost savings (\$0.3M), as well as research and development activities associated with Geophysical Computational Modeling to better estimate sediment loads into our Nation's waterways to minimize navigation disruption (\$2.6M).
XX	IWR	RI	REVIEW OF NON-FEDERAL ALTERATIONS OF USACE CIVIL WORKS PROJECTS	14,500,000	Funds are being used to review requests to alter Corps projects and coordinate with the requestor. Through Section 408 reviews, the Corps ensures that the alteration will not adversely impact the public interest and will not impair the usefulness of the authorized Corps project. The number of Section 408 requests in any year is dependent on many factors – primarily actions, schedules, and resources external to the Corps. In its review of section 408 requests, the Corps considers a range of factors, such as the effects of the proposed alteration on the reduction of risk to life safety, the reduction of the risk of flood damages, the environment, the project's ability to meet its other authorized purpose(s), and tribal considerations.
XX	IWR	RI	STEWARDSHIP SUPPORT PROGRAM	900,000	Funds are being used to provide broad support to Environment-Stewardship function at operating projects by assisting in the identification of national program needs, the development of new national program activities, strategic program planning, and the recommendation of national stewardship program funding priorities.
XX	IWR	RI	SUSTAINABLE RIVERS PROGRAM (SRP)	4,550,000	Funds are being used to evaluate flows below specific Corps reservoirs, apply resulting information to inform project operations, and refine best management practices for broader implementation at Corps reservoirs.
XX	MVD	RI	VETERAN'S CURATION PROGRAM AND COLLECTIONS MANAGEMENT	6,500,000	Funds are being used for labor and administrative expenses of veterans participating in the Veterans Curation Program, which is to serve as a primary means of rehabilitating and processing archaeological collections owned and administered by the Corps to meet Federal standards through the training and employment of veterans.
XX	ERDC	RI	WATER OPERATIONS TECHNICAL SUPPORT (WOTS)	14,500,000	Funds are being used for annual reach back technical support for Corps water operations (\$0.5M), continue progress on Forecast Informed Reservoir Operations (FIRO) (\$10M), integrating quantification of snowpack water storage into FIRO (\$0.5M), and continue activities associated with post-wildfire risk modeling tools (\$3.5M).
XX	IWR	RI	WATERBORNE COMMERCE STATISTICS	6,200,000	Funds are being used to perform operation, maintenance and necessary enhancements of the nation's waterborne commerce, vessel and shipper data and statistics programs.
